---

Hello and Welcome to our Enclosure Wizard.

The object of the page is to help you find a product to match your requirements from our range of products and associated accessories, when you do not know our range or part numbers. The Wizard has been designed to take key criteria that you have for your enclosure and guide you to a selection of products that will suit your needs.

#### Application:

- Tick one box that suits your application.

#### Environmental:

- Tick the boxes that apply to your usage for example if used mainly Indoors, but in a dusty environment "Indoor and IP rated need to be ticked.
- You can also state a preference here for the material used for the body of the box. All Vero plastic enclosures are made from Fire Retardant ABS.
- Standard RFI/EMC coatings can also be specified here, however all of our enclosures can be coated to give this capability

#### Display:

- Some cases are designed to accommodate LCD lens or Overlays as standard, specify this here.

#### Input / Output:

- Some cases have removable panels or access panels specify this here.
- Removable panels also aids modification of the panels for connectors cables etc., use the removable panels option if this is important for you.

#### Access to Case:

- Use these options to specify how the case goes together, some are screwed for strength some just snap together for speed of assembly.

#### PCB Assembly Size OR Max External Size

- Use these sliders to show the size of the PCB assembly that you want to place in the case. The wizard is set up to only choose those cases that can accommodate your PCB assembly.
- If a PCB size is not known leave all sliders at the default of "0" and specify the external case size.
- If neither are known leave all sliders at the default settings and all cases that meet your parameters will be displayed.

#### Accessories:

- To find accessories for cases just tick what you are looking for.
- Specialist end panels refers to infrared panels or nonstandard materials

If the search returns no products, try re refining the search adding one feature at a time, until you find what you require.

If you require assistance or would like to give us feedback on how we can improve the wizard, please do not hesitate to contact us at [sales@verotech.co.uk](mailto:sales@verotech.co.uk) or using the buttons on the site.
